The Division organized a visit to the School of Chemistry and Environmental Engineering, Wuyi University (五邑大學), to explore the arrangement of summer training to students studying in the programme of the Associate of Science in Environmental Studies (AScES) on 12th March 2010. Wuyi University was founded in 1985. It is located in Jiangmen City (江門) of Guangdong Province in the western part of the Pearl River Delta. Wuyi University currently has 2 schools, 15 departments, with over 20,000 students.

The trip was led by Dr. Cyril Tse, Acting Head of DCO. The Programme Leader of AScES, Dr. Andrew Layfield also participated in the visit. Other members included Dr. Desmond Tsoi (Year Tutor of AScES) and Dr. Timothy Kwong. The delegate met Prof. Sun Ning (孫甯院長), Mr. Zhao Zheng-Ming (趙爭嗚院辦公室主任), and Dr. Jiang Jacky (姜少華實驗中心副主任). In the beginning, the delegate visited the dining facilities and the accommodations for students. After, the delegate discussed the implementation details for the summer training programme that will be held in May 2010. At last, the delegate visited the laboratory facilities including the Analytical Chemistry Laboratory, Environmental Microorganism Laboratory, Advanced Instruments Laboratory, and Organic Laboratory. There also have other supporting facilities such as football and basketball playgrounds, swimming pools, tennis courts, library, computing facilities, and hostels that provide a high quality leaning environment for students.

The visit is very fruitful as we had resolved and agreed upon a number of points in the implementation of the coming summer training programmes. This will smooth out the actual execution of the training programmes and in turn benefit to our students.
There are two regular size swimming pools and other sports facilities for students to use.

The delegate visited the hostel for AScES students to live during the summer training programme.

Inside the hostel, there is a dining area that can provide meals for students.

The accommodation environment for students is up to standard.

The views outside the window of the accommodation are good.

There also a student canteen in the format of food court that allows more choices for students.
